

WEEK 12 PLAN (29.6.20)

WEEK 12 ACTIVITIES

As always there is no expectation to complete all the tasks – just do as much as is achievable for your family.

If you need any more / different types of activities (for any of the subjects) please don't hesitate to contact me. I am very happy to provide some variety or alternatives.

MATHS

Continues with 2 Options – pick one, both or mix them up.

Please remember to **choose the appropriate level** – your child may be on level C (option 1) for some topics - decimals for example - but needs more practise with others (Eg. area and perimeter) so might start on level B. Don't assume they are always level C. Try a few on the lower levels before moving up if you are unsure / to check. This is what happens in class.

Similarly with Option 2 – some of these are quite challenging or have levels – choose appropriate tasks for your child which will allow them to learn, succeed and progress.

TV SCIENCE – The Blue Planet or Forces or Nature are still showing on iPlayer and are great science options if you don't have the time, tools or motivation for experiments

GEOGRAPHY – I have attached **2 more country activity booklets** as I received feedback that children enjoyed them. Please add them into your timetable if you liked them.

ENGLISH - Please continue with the activities Mrs Kilius-Smith added to the website last week. If you need more tasks please get in touch

WEBSITES

Please find attached several useful websites to support the plan & learning

- Purple Mash <https://www.purplemash.com/sch/buckminster>
- Maths / English: <https://kids.classroomsecrets.co.uk/>
- English: <https://spellingframe.co.uk/> (choose year group)
- Maths: <https://www.themathsfactor.com/>
- Topic: Search 'Youtube Maya Civilisation' on google
- Topic: BBC Bitesize <https://www.bbc.co.uk/bitesize/topics/zq6svcw>
- PE: <https://family.gonoodle.com/> (family access is free)
- PE: <https://www.youtube.com/user/thebodycoach1> The Body Coach
- Coding: <https://code.org/minecraft> - choose an adventure
- Coding: <https://scratch.mit.edu/> (doesn't work on a tablet / phone)
- Coding: Scratch Tutorials / Guides
<https://projects.raspberrypi.org/en/codeclub/scratch-module-1>
- Coding: Scratch Jnr (Free app – tutorials on youtube or Scratch Jr website)
- Coding: Tynker Games <https://www.tynker.com/hour-of-code/>
- ESafety: https://beinternetawesome.withgoogle.com/en_us/interland
- Languages: Duolingo (free app) also works on a laptop - free
