

WEEK 5 PLAN (4.5.20)

WEEK 5 ACTIVITIES - Week 5 continues as per previous weeks from this summer term – as does the suggested timetable. I know most of you are fitting the tasks to your own plan for the week. Remember there is no expectation to complete all the tasks – just do as much as is achievable for your family.

I have attached 2 options again for maths – Option 1 (more traditional maths questions), Option 2 (problem solving) – Choose which you prefer or have a go at both for a change.

I have added a **MATHS CHALLENGE** Activities document with lots of puzzle type questions as an extra- **Please DO NOT PRINT the whole file – just the challenge you are doing (It is over 100 pages long)** – Use the **PPT** in slideshow to go through the questions, the **PDF** may be better to print the worksheet for each questions (at the end of the document)

There should still be plenty of activities left on the other subject grids. However if you need anything else or this isn't working for you / your child, please let me know.

KEY To Activities

Online activity

look at activity online, write answers in the book (or print a few sheets)

Only requires a piece of paper Computer not needed for activity

COMPUTING – E Safety Y5 & Y6

Please continue to do E-Safety tasks which are listed on the computing grid. This is a great website which has 6 online safety games.

<https://www.digitalpassport.org/index.html>

These can be used instead of or in addition to the tasks on the grid.

WEBSITES

Please find attached several useful websites to support the plan & learning

- Purple Mash <https://www.purplemash.com/sch/buckminster>
