

WEEK 6 PLAN (11.5.20)

WEEK 6 ACTIVITIES - Week 6 continues as per previous weeks.

Remember there is no expectation to complete all the tasks – just do as much as is achievable for your family.

I have attached 2 options again for maths – Option 1 (more traditional maths questions), Option 2 (problem solving / real life) – Choose which you prefer or have a go at both.

Mrs Parkin has created some more **English writing tasks** based on 'The Explorer' by Katherine Rundell. This is a great book for Y5/6 if you want to continue reading it – please do. For the comprehension sheets, we usually print 2 pages per sheet and back to back which will reduce the printing significantly. And only select the sheets needed if you aren't recording in books.

I have also added a few more **science** tasks and an **art** idea which I have done at home with my boys as a few 'extras'.

There should still be plenty of activities left on the other subject grids. However if you need anything else or this isn't working for you / your child, please let me know.

KEY To Activities

Online activity

look at activity online, write answers in the book (or print a few sheets)

Only requires a piece of paper Computer not needed for activity

COMPUTING – E Safety Y5 & Y6

Please continue to do E-Safety tasks which are listed on the computing grid. This is a great website which has 6 online safety games.

<https://www.digitalpassport.org/index.html>

These can be used instead of or in addition to the tasks on the grid.

WEBSITES

Please find attached several useful websites to support the plan & learning

- Purple Mash <https://www.purplemash.com/sch/buckminster>
