

## Key Vocabulary

<b>seasons</b>	There are four <b>seasons</b> each year, <b>autumn</b> , <b>winter</b> , spring and summer.
<b>autumn</b>	In <b>autumn</b> , the <b>weather</b> begins to get colder. The leaves start to fall from the trees. The amount of <b>daylight</b> becomes less. This means the daytimes are shorter and the night times are longer.
<b>winter</b>	In <b>winter</b> , the <b>weather</b> is much colder. Sometimes it is cold enough to freeze, leaving frost and ice on the ground. It sometimes snows. Many trees have bare branches as all their leaves have fallen off. The daytimes are the shortest in the year and the night times are the longest.
<b>weather</b>	The <b>weather</b> includes the temperature outside, the wind direction and strength, as well as rain, cloud, snow and sun.
<b>daylight</b>	<b>Daylight</b> is when it is light outside. The amount of <b>daylight</b> changes with each <b>season</b> .

autumn

winter

## The Four Seasons

autumn

September  
October  
November

winter

December  
January  
February

spring

March  
April  
May

summer

June  
July  
August

**Daylight** hours each month:

Month	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	June	July	Aug
Hours of <b>Daylight</b>	13	11	9	8	8	10	12	14	15	16	16	14
